June 11, 2016

Meeting Notice:

Our next meeting will be held on: June 11th, 2016 at 9:00am

We meet the second Saturday of each month in the woodshop of the Harding School in Coos Bay. The Harding Building is located below Marshfield High School on 7th Street. Parking is behind the building near the football/track field. Enter the workshop through the door on at the NW corner of the building. Look for our sign on 7th street and near the door to the classroom.

Members, Guests and Prospective members are welcome and encouraged to attend. Meetings begin at 9am and include a club raffle, show and tell, woodturning demo and regular club business. Coffee is also provided.

Jim's Corner:

I attended the Board meeting of the Oregon Woodturning Symposium June 1 in Salem. They are planning a bigger and better 2nd year Symposium. They have confirmed 10 demonstrators and 5 demonstrator rooms for the event in March of 2017 In Albany. So begin your planning to attend this event. You will find a wealth of knowledge available to you.

AAW has announced that the AAW International Symposium will be held in Portland, Oregon June 14 – 17, 2018. The last one held in the northwest was in Portland Oregon in 2007 according to the article I read. This will be a real opportunity for turners to expand their knowledge and rub shoulders with the best in the business.

I am looking forward to attending these two events with much enthusiasm.

Jim Toftner

Ike's Program Notes:

June 11th – Sharpening & Hands-on with Seam Rippers

Learn the techniques for getting your tools sharp. Ed Meyer is going to walk us through how he gets his tools sharp. He is one of our best at sharpening tools with the Wolverine system used by a majority of us. This is a set of important skills every woodturner needs. In the afternoon Kelley will lead a class in making and embellishing seam rippers. The club is always in need of seam rippers to sell and the plan is you will learn skills for making it extra attractive. Captive rings, burnings, and other tricks for adding beauty to the project will be part of the hands on project.

July 9th

A.M – Vessel Hollowing with Phil Lapp from McMinnville

P.M. – Making Tops with Rick Fox

August 13th

A.M. – Spiral Cuts with Steve Adams & CA Finishing with Ron Newlander

P.M. – Making Pens with Ron Newlander

October 8th

A.M. – Segmented Turning & Design Software with Lloyd Johnson from Aurora

P.M. - open

Ike

Secretary Report:

Ann
