

SOUTHCOAST WOODTURNERS NEWSLETTER

News of the South Coast Woodturner's Club
A Chapter of the American Association of Woodturner's

SouthCoastWoodturners

(www.southcoastwoodturners.com)

January 14, 2017

Meeting Notice:

Our next meeting will be held on: January 14, 2017 at 9:00am

We meet the second Saturday of each month in the woodshop of the Harding School in Coos Bay. The Harding Building is located below Marshfield High School on 7th Street. Parking is behind the building near the football/track field. Enter the workshop through the door on at the NW corner of the building. Look for our sign on 7th street and near the door to the classroom.

Members, Guests and Prospective members are welcome and encouraged to attend. Meetings begin at 9am and include a club raffle, show and tell, woodturning demo and regular club business. Coffee is also provided.

Tristan's Corner:

Happy New Year everyone! As we start the new year for the South Coast Woodturners, I would like to thank our outgoing board members for all the hard work! Please be sure to thank Ike and Ron when you see them.

Our main goal as a club this year is **INVOLVEMENT**. We would like to work on getting new members in the club and involved. While also retaining and getting our current members involved in new areas of the club and aspects of turning and the club. Jim and Steve have some great demos and workshops planned for the year. I'd like to thank them of all their hard work on these.

Here's to a great year of making chips!

Tristan

Jim's Program Notes:

Mother Nature has given us a new challenge for our Woodturners meeting. I choose to err on the side of caution and called Jim Hobson and asked him if we would be smart to cancel our demonstration for Friday and Saturday because of the weather conditions over the hill and in the Willamette Valley. With expressed regret Jim agreed and we will reschedule the meeting sometime later.

The new challenge for the meeting will be problem solving. It seems that about once a year something like this comes up and it's a chance for all of us to work together. In the past this has turned out to be a benefit for a lot of the turners. If anyone has a specific item that they would like help with, please let me know. This would give me an opportunity to do some prep work and also make sure we get it addressed during the

meeting. I encourage you to bring your special problem project so that we can work together on it, even if you don't reply to my request.

Next month Joe Essin, from Woodcraft, will be here to demonstrate the "Sorby Wobble Chuck". This specialized chuck is used for offset turning. He will also bring a texturing tool to demonstrate what it can do.

Please bring your items for show and tell and the turning problems to the meeting.

Jim Toftner – Program Chair

Membership:
