Meeting Notice:

Our next meeting will be held on: February 11, 2017 at 9:00am

We meet the second Saturday of each month in the woodshop of the Harding School in Coos Bay. The Harding Building is located below Marshfield High School on 7th Street. Parking is behind the building near the football/track field. Enter the workshop through the door on at the NW corner of the building. Look for our sign on 7th street and near the door to the classroom.

Members, Guests and Prospective members are welcome and encouraged to attend. Meetings begin at 9am and include a club raffle, show and tell, woodturning demo and regular club business. Coffee is also provided.

Tristan's Corner:

I hope everyone had a good month of turning. I look forward to seeing that you created since the last meeting. Was anyone able to use what they learned at the January demo session to solve one of their problems? If you did, bring us your "fixed" item for show and tell.

We are still looking for some help in a few areas within the club. If anyone is willing to help setup and run the AV during the meetings it would be greatly appreciated. Meeting setup could also use some help if you are willing. As members move up to leadership positions we need people to fill in their old roles. If you have any questions about how you can help out, let one of the officers know.

Please read what Jim has to say about the Oregon Woodturning Symposium. The Symposium would be a great way to see some amazing turners in person. Oregon will also be hosting the AAW International Symposium in 2018

(<http://www.woodturner.org/page/2018Portland>) This is sure to be a great show.

Jim's Program Notes:

If you want to become a better wood turner, The Oregon Woodturning Symposium is a way to see things and techniques from professionals. Most people who once attends a symposium, come back recharged and want to attend another symposium. The symposium will be held March 17 -19 in Albany Oregon. Attached is a link for the symposium web site – <http://oregonwoodturningsympoium.com>

There is a price break for registering before February 15th.

Our demonstration for our February 2017 meeting, will be done by Joe Essin from Eugene Woodcraft. He will demo the Sorby Wobble Chuck and show us some texturing

tools and techniques. Your club officers try to challenge you into trying new things and making you a better turner. If you have a topic that you would like to see a demo on, please contact one of the officers.

We are asking members to bring a pair of gloves and help us clean up the wood room during the afternoon session.

Jim Toftner – Program Chair

Library:

As much I would encourage all members to make use of our library, they are missing a great resource that the AAW offers. The wealth of info and videos from the AAW website, www.woodturners.org just follow the links to EXPLORE or VIDEO SOURCE. <<<WARNING !>>> This can be addictive with no known cure.

Club library is open before, during breaks and after the regular meetings.

Any questions, see me.
