## Meeting Notice

Our next meeting will be held on: May 12, 2018 at 9:00am

We meet the second Saturday of each month in the woodshop of the Harding School in Coos Bay. The Harding Building is located below Marshfield High School on 7th Street. Parking is behind the building near the football/track field. Enter the workshop through the door on at the NW corner of the building. Look for our sign on 7th street and near the door to the classroom.

Members, Guests and Prospective members are welcome and encouraged to attend. Meetings begin at 9am and include a club raffle, show and tell, woodturning demo and regular club business. Coffee is also provided.

## Tristan's Corner

I saw a funny sign while in driving home from Eugene yesterday. "April showers, bring May showers." While I find the sign funny, I hope it was wrong. I missed the last meeting, due Eddie having his first T-ball opening ceremony and game. Thanks to Steve and the rest of the board for keeping this moving. Thanks to the rest of the club for not giving then too hard of time.

The AAW Symposium is now less than 2 months away. I mentioned this in an email, but if you are attending please consider volunteering for at least 1 shift. I believe we still have lathe raffle tickets available. If you would like one or ten, please see Scott. If we run out we can get some more from the raffle coordinator.

We are at that point in the year where we need to be thinking about officers/board members for next year. If you are interested in becoming helping oversee our club, please talk with Steve, Scott, Ann, Jim T or me. It is a rewarding experience to help guide what the club does. Remember this is YOUR club. The board just helps guide what we do.

I have had a couple of members ask about what we are planning for community involvement this year. Some great suggestions were given, I would also like to know what other members would like us to do. The board would like to facilitate putting something on, but we need your help to know what you are interested. Please bring your ideas to the meeting and we will see what we can come up with.

**Tristan Holland - President**

## Steve's Program Notes

There's been a change in the presentation for May. Mark Rom will demonstrate an alternative method for turning spheres. He said his process involves octagons and no measurements. I'm intrigued to find out more.

June's presenter will be Steve Wood. He does segmented turnings and will demo his cutting and setup methods.

Dick Flynn is scheduled for July and will talk about "Woodturning 101" and coring.

As usual, if you have demo idea to present or if you know of someone whose arm we can twist, please let tell one of your club officers.

**Steve Adams – Program Chair**

## **Treasurers Report**

April 27	AAW insurance (\$95.00)	Feb Statement
	Interest	\$0.11 Feb Statement
	Interest	\$0.13 March Statement
